Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

but	Describe what problems or barriers stand in the way – *what bothers them most?*	Describe the problems or barriers that get in the way here

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel

PS-1	A sports analyst who studies Olympic performance across countries and years	Compare country-wise medal performance and spot trends from 1992 to 2026	Data is scattered across many tables and hard to compare quickly	There is no single interactive dashboard combining athletes and medal results	Frustrated and overwhelmed
PS-2	A national sports federation official planning athlete training budgets	Find which sports give the best medal return on investment	I cannot easily see how investment relates to medals won	Investment, athlete and medal data are kept separately and not visualised together	Uncertain and anxious about decisions
